

Project Proposal – Starting an Online Business

Course: Digital Marketing

1. Business Name

Aroma Edge

A startup perfume brand focused on a small-scale online launch with one signature mini perfume line for students.

2. Product/Service

Product: Pocket Perfume / Mini Perfume Spray (10ml–15ml) for school, college, and university students and young adults.

At the startup stage, the business will begin with only one small category instead of multiple perfume lines. We will sell affordable, easy-to-carry mini perfumes that are suitable for daily use, classes, college, university, office, and casual outings.

Service: We will also create a simple business website where customers can view products, prices, fragrance details, and place orders online.

3. Description

Aroma Edge is a small-scale online startup perfume business created for our university digital marketing project.

The business will start with a single product category: mini pocket perfumes. These perfumes are affordable, portable, and attractive for school, college, and university students who want a fresh fragrance at a reasonable price.

Mission Statement:

To provide affordable, stylish, and long-lasting mini perfumes for students and young customers through digital platforms and our business website.

Vision Statement:

To become a trusted small online perfume startup that grows into a recognized youth fragrance brand in Pakistan.

Goals:

- Launch a small-scale online perfume startup with one core product.
- Create a simple business website for online product display and ordering.
- Create brand awareness among students through social media.
- Generate initial sales using Instagram, Facebook, WhatsApp Business, and our website.
- Build trust through quality packaging, affordable pricing, and customer reviews.
- Expand into more fragrance variants after gaining market feedback.

4. Target Audience

School, college, university students and young adults (16–28 years), male and female, interested in fashion, grooming, and affordable products.

5. Platforms to Use

Instagram, Facebook, WhatsApp Business, Website, Canva.
